SAFETY DATA SHEET

Electrolyte KCl saturated

SDS Number: AA10487-0000000020

In accordance with the Standard for Classification and Labeling of Chemical Substance and Safety Data Sheet,
Article 10 Paragraph 1

Section 1. Chemical product and company identification

A. Product name : Electrolyte KCl saturated

B. Relevant identified uses of the substance or mixture and uses advised against

Product use : Laboratory chemicals.

C. Manufacturer / Importer / : Manufacturer

Distributor

Metrohm AG Ionenstrasse 9100 Herisau

9100 Heris Schweiz

Tel.: +41 (0)71 353 85 85 Fax: +41 (0)71 353 89 01 E-Mail: info@metrohm.com Web: www.metrohm.com

Supplier

Hwashin Instrument Co., Ltd.

10, Nonhyeon-ro 81-Gil

Gangnam-Gu Seoul 06237 Korea

Tel.: +82 (2) 3450 5600 Fax: +82 (2) 3450 5700 E-Mail: sales@hwashin.net

e-mail address of person responsible

for this SDS

: datasheet@metrohm.com

Emergency telephone number of the company

: + 49 (0)6132-84463 (24 h, GBK GmbH)

Section 2. Hazards identification

A. Hazard classification : Not classified.

This product was evaluated in accordance with the Industrial Safety and Health Act

and the Chemical Control Act, and determined to be 'not classified'.

B. GHS label elements, including precautionary statements

Signal word : No signal word.

Hazard statements : No known significant effects or critical hazards.

Precautionary statements

Prevention : Not applicable.
Response : Not applicable.
Storage : Not applicable.
Disposal : Not applicable.

Date of issue/Date of revision: 2023/10/17Date of previous issue: No previous validationVersion: 1

Section 2. Hazards identification

C. Other hazards which do not result in classification

None known.

Section 3. Composition/information on ingredients

Substance/mixture : Mixture

Ingredient name	Common name	Identifiers	%
potassium chloride	-	CAS: 7447-40-7	≥25 - ≤50

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

A. Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation

occurs.

B. Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and

shoes. Get medical attention if symptoms occur.

C. Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Get medical attention if symptoms occur.

D. Ingestion : Wash out mouth with water. If material has been swallowed and the exposed

person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms

occur.

E. Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large

quantities have been ingested or inhaled.

Specific treatments: No specific treatment.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

A. Extinguishing media

Suitable extinguishing

media

: Use dry chemical, CO2, water spray (fog) or foam. Use an extinguishing agent

suitable for the surrounding fire.

Unsuitable

extinguishing media

: Do not use water jet.

B. Specific hazards arising from the chemical

: In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products

: Decomposition products may include the following materials:

halogenated compounds metal oxide/oxides

C. Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Date of issue/Date of revision : 2023/10/17 Date of previous issue : No previous validation Version : 1 2/10

Section 5. Fire-fighting measures

Special precautions for fire-fighters

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Section 6. Accidental release measures

- A. Personal precautions, protective equipment and emergency procedures
- : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- B. Environmental precautions
- : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- C. Methods and materials for containment and cleaning up

Small spill

: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

A. Precautions for safe handling

Protective measures

: Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

- B. Conditions for safe storage, including any incompatibilities
- : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

A. Control parameters

Occupational exposure limits

None.

Biological exposure indices

No exposure indices known.

controls

Appropriate engineering : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

B.

Date of issue/Date of revision : 2023/10/17 Version :1 3/10 Date of previous issue : No previous validation

Section 8. Exposure controls/personal protection

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Personal protective equipment

Respiratory protection C.

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Eye protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately

Body protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Hygiene measures

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

A. Appearance

Physical state : Liquid. Color : Colorless. B. Odor Odorless. C. Odor threshold : Not applicable. : 5.5 to 8.5 E. Melting/freezing point : Not available.

Boiling point, initial boiling point, and

: Not available.

boiling range

G. Flash point : Not available. : Not available. Fire point H. Evaporation rate : Not available. Flammability (solid, gas) : Non-flammable.

J. Lower and upper explosive (flammable) : Not available.

limits

: Not available. K. Vapor pressure Solubility in water : Soluble. M. Vapor density Not available.

Date of issue/Date of revision : 2023/10/17 Version :1 4/10 Date of previous issue : No previous validation

Section 9. Physical and chemical properties

N. Relative density : Not available.

Density : 1.35 g/cm³ [20°C (68°F)]

O. Partition coefficient: n-

octanol/water

: Not applicable.

P. Auto-ignition

: Not available.

temperature

Q. Decomposition

temperature

: Not available.

: Not available. R. Viscosity : Not applicable. S. Molecular weight

Particle characteristics

Median particle size : Not applicable.

Section 10. Stability and reactivity

A. Chemical stability : The product is stable.

Possibility of hazardous

reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

B. Conditions to avoid : Keep away from heat, sparks and flame.

C. Incompatible materials : Reactive or incompatible with the following materials: Strong oxidizing materials.

: Under normal conditions of storage and use, hazardous decomposition products D. Hazardous should not be produced.

decomposition products

Section 11. Toxicological information

A. Information on the likely : Not available.

routes of exposure

Potential acute health effects

Inhalation : No known significant effects or critical hazards. Ingestion : No known significant effects or critical hazards. Skin contact : No known significant effects or critical hazards. Eye contact : No known significant effects or critical hazards.

Over-exposure signs/symptoms

Inhalation : No specific data. Ingestion : No specific data. Skin contact : No specific data. Eye contact : No specific data.

B. Health hazards

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure	Remarks
potassium chloride	LD50 Oral	Rat	3020 mg/kg	-	-

Conclusion/Summary : Based on available data, the classification criteria are not met.

Irritation/Corrosion

Date of issue/Date of revision : 2023/10/17 Date of previous issue : No previous validation Version 5/10

Section 11. Toxicological information

Product/ingredient name	Result	Species	Score	Exposure	Observation	Remarks
potassium chloride	Eyes - Mild irritant	Rabbit	-	-	-	-
	Skin - Not irritant	Rabbit	-	-	-	-

Conclusion/Summary

SkinBased on available data, the classification criteria are not met.EyesBased on available data, the classification criteria are not met.

Respiratory: Not available.

Sensitization

Product/ingredient name	Route of exposure	Species	Result	Remarks
potassium chloride	Respiratory	Human	Not sensitizing	-
	skin	Human	Not sensitizing	-

Conclusion/Summary

Skin : Based on available data, the classification criteria are not met.Respiratory : Based on available data, the classification criteria are not met.

CMR - ISHA Article 42 Occupational Exposure Limits

Not available.

Mutagenicity

Product/ingredient name	Test	Experiment	Result	Remarks
potassium chloride	-	Experiment: In vitro	Positive	-
	-	Experiment: In vitro	Negative	-

Conclusion/Summary : Based on available data, the classification criteria are not met.

Carcinogenicity

Product/ingredient name	Result	Species	Dose	Exposure	Remarks
potassium chloride	Negative -	-	-	-	-

Conclusion/Summary: Based on available data, the classification criteria are not met.

Reproductive toxicity

Conclusion/Summary: Not available.

Teratogenicity

Product/ingredient name	Result	Species	Dose	Exposure	Remarks
potassium chloride	Negative	-	-	-	-

Conclusion/Summary: Based on available data, the classification criteria are not met.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Potential chronic health effects

Chronic toxicity

Date of issue/Date of revision : 2023/10/17 Date of previous issue : No previous validation Version : 1 6/10

Section 11. Toxicological information

Product/ingredient name	Result	Species	Dose	Exposure	Remarks
potassium chloride	Sub-chronic NOAEL	Rat - Male	1820 mg/kg	-	-

Conclusion/Summary: Based on available data, the classification criteria are not met.

General : No known significant effects or critical hazards.
 Carcinogenicity : No known significant effects or critical hazards.
 Mutagenicity : No known significant effects or critical hazards.
 Reproductive toxicity : No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Product/ingredient name	Oral (mg/ kg)	Dermal (mg/kg)	Inhalation (gases) (ppm)	Inhalation (vapors) (mg/l)	Inhalation (dusts and mists) (mg/l)
Electrolyte KCl saturated	8628.6	N/A	N/A	N/A	N/A
potassium chloride	3020	N/A	N/A	N/A	N/A

Section 12. Ecological information

A. Ecotoxicity

Product/ingredient name	Result	Species	Exposure	Remarks
potassium chloride	Acute EC50 >1000 mg/l [OECD 209]	Activated sludge	3 hours	-
	Acute EC50 >100 mg/l [OECD 201]	Algae - Desmodesmus subspicatus	72 hours	-
	Acute EC50 440 to 880 mg/l [OECD 202]	Daphnia - <i>Daphnia</i> magna	48 hours	-
	Acute LC50 880 mg/l [OECD 203]	Fish - Pimephales promelas	96 hours	-
	Chronic NOEC 500 mg/l [OECD 210]	Fish	7 days	-

Conclusion/Summary: Based on available data, the classification criteria are not met.

B. Persistence and degradability

Conclusion/Summary: There are no data available on the mixture itself.

C. Bioaccumulative potential

Not available.

D. Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

Mobility : Not available.

Date of issue/Date of revision: 2023/10/17Date of previous issue: No previous validationVersion: 1

Section 12. Ecological information

E. Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

- A. Disposal methods
- : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
- B. Disposal precautions
- : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	UN	IMDG	IATA
A. UN number	Not regulated.	Not regulated.	Not regulated.
B. UN proper shipping name	Not regulated.	Not regulated.	Not regulated.
C. Transport hazard class(es)	Not regulated.	Not regulated.	Not regulated.
Label			
D. Packing group	Not regulated.	Not regulated.	Not regulated.
E. Environmental hazards	No.	Marine Pollutant: No	No.

F. Special precautions for user

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable.

to IMO instruments

Section 15. Regulatory information

A. Regulation according to ISHA

ISHA article 117 (Harmful substances prohibited from manufacture)

: None of the components are listed.

ISHA article 118 (Harmful substances requiring permission) : None of the components are listed.

Exposure Limits of Chemical Substances and Physical Factors

None of the components have an OEL.

Annex 19 (Exposure standards established for harmful factors)

ISHA Enforcement Regs: None of the components are listed.

Date of issue/Date of revision : 2023/10/17 Date of previous issue Version :1 8/10 : No previous validation
