

# NIRS Analyzer PRO – FiberSystem

2.928.1120

The NIRS Analyzer Pro is a single point process analysis system based on high resolution diode array technology. It provides non-destructive analysis of liquids, granules, powders, slurries or opalescent substances by using fiber optics microbundles and contact probes for reflectance, transreflectance and transmission measurements.

Below, the accessories are grouped into Scope of delivery and Optional accessories.  
Please keep this printout at hand for ordering replacement material.  
These lists may be subject to change.
