

Metrosep C Supp 2 - 150/4.0

6.01053.420

The Metrosep C Supp 2 - 150/4.0 column is the standard separation column of the Metrosep C Supp 2 product range. It is suitable for the separation and determination of monovalent and divalent cations with an excellent sodium/ammonium separation. The Metrosep C Supp 2 separation material is based on a polystyrene-divinylbenzene copolymer with carboxyl groups. The column is used with sequential suppression. So it is particularly suitable for determining concentrations in the middle $\mu\text{g/L}$ range and lower.

Below, the accessories are grouped into Scope of delivery and Optional accessories.
Please keep this printout at hand for ordering replacement material.
These lists may be subject to change.

Scope of delivery 6.01053.420

2 PCS

6.2744.060

Threaded stopper

For UNF 10/32. Stopper for IC, e.g. for the sealing of columns.

Optional accessories

Order no.	Description
6.01053.500	<p>Metrosep C Supp 2 Guard/4.0</p> <p>The Metrosep C Supp 2 Guard/4.0 contains the C Supp 2 column material and is used to protect Metrosep C Supp 2 cation columns. Particles and contamination are reliably retained, considerably prolonging the service life of the analytical separation column. The Metrosep C Supp 2 Guard/4.0 also works based on the "On Column Guard System" and is screwed directly onto the separation column with virtually no dead volume.</p>
