

## Metrosep Organic Acids - 100/7.8

6.1005.210

The exclusion separation column for the determination of organic acids and weak mineral acids. The low capacity in comparison with the Metrosep Organic Acids - 250/7.8 (6.1005.200) allows the rapid separation of organic acids. This column is suitable primarily for small and medium concentrations in uncomplicated sample matrices.

Below, the accessories are grouped into Scope of delivery and Optional accessories. Please keep this printout at hand for ordering replacement material. These lists may be subject to change.

### Scope of delivery 6.1005.210

Qt.	Order no.	Description
-----	-----------	-------------

2 PCS

6.2744.060

Threaded stopper

For UNF 10/32. Stopper for IC, e.g. for the sealing of columns.

# Optional accessories

Order no.	Description
6.1005.250	<div><div>Metrosep Organic Acids Guard/4.6</div><div>The Metrosep Organic Acids Guard/4.6 effectively removes contamination, thus protecting the analytical separation column.</div></div> <div>The image shows two components of the Metrosep Organic Acids Guard/4.6. On the left is a small, yellow, conical guard column with a threaded base. On the right is a larger, silver-colored metal component, likely the analytical separation column, with a red cap at the top and a threaded base. Both components are shown at an angle, highlighting their cylindrical shapes and connection points.</div>
