

NIRS Analyzer PRO – DirectLight/NonContact

A629281130

The NIRS Analyzer Pro is a single point process analysis system based on high resolution diode array technology. It provides non-destructive analysis of solids like granules and powders. This system is typically mounted above a conveyor belt in order to analyze products passing by. Fast moving, uneven surfaces are able to be analyzed easily with this configuration.

Below, the accessories are grouped into Scope of delivery and Optional accessories.
Please keep this printout at hand for ordering replacement material.
