6.02711.000	Spoon for paste
-------------	-----------------

Suitable for use in Karl Fischer water content determinations of pasty substances such as honey, cosmetics, greases or various dairy products.

The spoon for paste facilitates the addition of viscous samples. It is handled like any other spatula and enables convenient, rapid and loss-free addition of pastes into the Karl Fischer titration vessel.

To dissolve viscous samples quickly and completely, we also recommend the use of a homogenizer.
