

884 Professional VA manual per CVS

2.884.0210

L'884 Professional VA manual per applicazioni CVS è il modello base per le determinazioni di fascia alta di additivi organici in bagni galvanici con «Cyclic Voltammetric Stripping» (CVS), «Cyclic Pulse Voltammetric Stripping» (CPVS) e cronopotenziometria (CP) o determinazioni voltammetriche di metalli pesanti con elettrodo a disco rotante. La comprovata tecnologia degli elettrodi Metrohm, in combinazione con un potenziostato/galvanostato potente e con il software viva estremamente flessibile, apre nuove prospettive nell'ambito delle applicazioni CVS. Il potenziostato con calibratore certificato si regola automaticamente prima di ogni misurazione e garantisce la massima precisione possibile. L'ingresso per la misurazione della temperatura integrato consente il monitoraggio della temperatura della soluzione durante la misura.

Con lo strumento possono essere eseguite anche determinazioni voltammetriche. La sonda di misura sostituibile consente il cambio rapido tra le varie applicazioni con elettrodi diversi.

Per il controllo, la registrazione e la valutazione dei dati è necessario il software viva.

L'884 Professional VA manual per le applicazioni CVS viene fornito con una vasta gamma di accessori e una sonda di misura per elettrodi a disco rotante. Il set di elettrodi e la licenza viva devono essere ordinati separatamente.

Qt.	Order no.	Descrizione
1 PCS	1.884.0010	884 Professional VA
		<p>884 Professional VA is the universal entry-level instrument in the Professional VA/CVS instrument series. In conjunction with the compatible measuring head and compatible electrode set, you can perform trace analysis determinations, voltammetry with the Multi-Mode Electrode pro, or determinations of organic additives in electroplating baths, with "Cyclic Voltammetric Stripping" (CVS), "Cyclic Pulse Voltammetric Stripping" (CPVS), and chronopotentiometry (CP). The proven Metrohm electrode methods combined with a completely new design of potentiostat/galvanostat and the extremely high-performance viva software open up new perspectives. The potentiostat with a certified calibrator readjusts itself automatically before each measurement, thus guaranteeing maximum precision. The replaceable measuring head enables rapid changes between various applications with different electrodes.</p> <p>The viva software is required for control, data acquisition, and evaluation.</p> <p>The 884 Professional VA is supplied with reduced accessories, without measuring head and electrodes. Electrode set and viva license are to be ordered separately.</p>
		
1 PCS	6.1256.010	RDE measuring head for Professional VA/CVS instruments
		<p>Measuring head for operation with rotating disk electrodes.</p>
		
1 PCS	6.1801.100	PVC tubing / 4 mm / 7 mm / 5 m
		

1 PCS

6.2151.000

Cable USB A – mini-DIN 8-pin

Controller cable

1 PCS

6.2703.000

Stand ring for titration vessels

1 PCS

6.2711.090

Drip pan for Professional VA/CVS instruments

1 PCS

6.2739.000

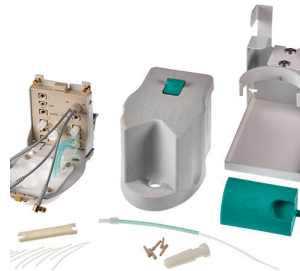

Wrench

For tightening connectors

Accessori opzionali

Order no.	Descrizione
2.800.0020	<p>800 Dosino</p> <p>Drive with write/read hardware for intelligent dosing units. With permanently attached cable (length 0.65 m).</p> 
6.1110.120	<p>Pt1000 temperature sensor for CVS (installation length 9 cm)</p> <p>Pt1000 temperature sensor (class B) for Professional CVS Instruments.</p> 
6.1256.020	<p>MME measuring head for Professional VA instruments</p> <p>Measuring head for operation with the Multi-Mode electrode pro or the scTRACE Gold.</p> 
6.1256.030	<p>SPE measuring head for Professional VA instruments</p> <p>Measuring head for operation with <i>screen-printed electrodes</i> (SPE) or the scTRACE Gold.</p> 

6.1256.040 RDE measuring head for Professional VA/CVS instruments with high chemical resistance

Measuring head for operation with rotating disk electrodes. Solvent-resistant version for applications in nonaqueous media.

6.1454.130 Form seal made of FPM for 61414xxx

for KF and VA instruments

6.2104.140 Electrode cable / 1 m / 2 x 2 mm

For connecting temperature sensors with Metrohm plug-in head G with 780, 781, 826, 827 pH/Ion meters and all Titrandos

6.5339.000 CVS electrode equipment with 1 mm platinum electrode for Professional VA/CVS instruments

Complete electrode set for the determination of organic additives in electroplating baths with CVS (Cyclic Voltammetric Stripping). Contains rotating platinum working electrode (electrode diameter: 1 mm), reference electrode, platinum auxiliary electrode, measuring vessels and electrolyte solutions.

6.5339.010

CVS electrode equipment with 2 mm platinum electrode for Professional VA/CVS instruments

Complete electrode set for the determination of organic additives in electroplating baths with CVS (Cyclic Voltammetric Stripping). Contains rotating platinum working electrode (electrode diameter: 2 mm), reference electrode, platinum auxiliary electrode, measuring vessels and electrolyte solutions.

6.5339.020

CVS electrode equipment with 3 mm platinum electrode for Professional VA/CVS instruments

Complete electrode set for the determination of organic additives in electroplating baths with CVS (Cyclic Voltammetric Stripping). Contains rotating platinum working electrode (electrode diameter: 3 mm), reference electrode, platinum auxiliary electrode, measuring vessels and electrolyte solutions.

6.5339.030

VA electrode equipment with Multi-Mode Electrode pro for Professional VA instruments

Complete electrode set for polarographic and voltammetric determinations. Includes Multi-Mode Electrode pro, reference electrode, platinum auxiliary electrode, measuring vessel, stirrer, electrolyte solution and additional accessories for setting up and operating the Multi-Mode Electrode.

6.5339.040

VA electrode equipment with rotating disk electrode (RDE) made of glassy carbon for Professional VA instruments

Complete electrode set for voltammetric determinations, e.g. using mercury film method. Includes drive for rotating disk electrode, glassy carbon electrode tip, reference electrode, glassy carbon auxiliary electrode, measuring vessel, and electrolyte solution.

6.5339.050

VA electrode equipment with scTRACE Gold for Professional VA instruments

Complete electrode set for the determination of arsenic or mercury. Includes holders for scTRACE Gold, scTRACE Gold, stirrer and measuring vessel.

6.5339.060

CVS electrode equipment with 2 mm platinum electrode for Professional VA/CVS instruments for intensive use

Complete electrode set for the determination of organic additives in electroplating baths with CVS (Cyclic Voltammetric Stripping). Contains rotating platinum working electrode (electrode diameter: 2 mm), driving axle with mercury contact, maintenance-free gel reference electrode, platinum auxiliary electrode, measuring vessels and KCl electrolyte solution.

6.5339.070

VA accessory equipment with SPE electrode shaft for professional VA instruments

Accessory equipment for use with *screen-printed electrodes* (SPE). Contains electrode shaft for screen-printed electrodes, stirrer, and measuring vessel. Without electrodes.

6.5339.080

VA electrode equipment with bismuth drop electrode for Professional VA instruments

Complete electrode set for voltammetric determinations of heavy metals. Contains bismuth drop electrode, reference electrode, glassy carbon auxiliary electrode, measuring vessel, stirrer, electrolyte solution, and additional accessories.

6.5339.110

CVS electrode equipment with 2 mm platinum electrode, gel reference electrode and steel auxiliary electrode for Professional VA/CVS instruments

Complete electrode set for the determination of organic additives in electroplating baths with CVS (Cyclic Voltammetric Stripping). Contains rotating platinum working electrode (electrode diameter: 2 mm), driving axle with mercury contact, maintenance-free gel reference electrode, steel auxiliary electrode, measuring vessels and KCl electrolyte solution.

6.5339.500

Equipment with 2x 807 Dosing Units for VA and CVS measurements

Accessory set for 2 auxiliary solutions for expanding VA or CVS systems. Contains 2x 807 Dosing Units 2 mL, 2x 100 mL clear glass bottles, bottle holder for 2 bottles, and connector material. Without Dosinos.

6.5339.510

Basic equipment with 2x 807 Dosing Units for VA measurements for 884 Professional VA

Accessory set for 2 auxiliary solutions for expanding manual VA systems. Includes one 807 Dosing Unit 2 mL and one 807 Dosing Unit 5 mL, clear glass bottles 100 mL, 250 mL and 2 L, bottle holders for 2 bottles, one 4-way micro tip, and connector material. Without Dosinos.

6.5339.520

Equipment with two 807 Dosing Units (2 + 50 mL) for CVS measurements

Accessory set for two auxiliary solutions for expanding CVS systems. Includes one 2 mL and one 50 mL 807 Dosing Unit each, clear glass bottles 100 mL and 2 L, bottle holders for 2 bottles, one 2-way microtip, and connector material. Without Dosinos.

Accessory kit for fully automated CVS pipetting system in combination with the 858 Professional Sample Processor. Contains one 807 Dosing Unit 5 mL and 50 mL each, clear glass bottles 2 L, pipetting tubing, rinsing station, safety shield and other accessories. Without Dosinos.

Computer program for control and data management of Professional VA/CVS instruments. The software permits checks, data acquisition, evaluation, and monitoring, as well as generation of reports.

Graphic user interface for routine operations, extensive database programs with reevaluation, graphic method editor with numerous templates, system configuration, very flexible user management, extensive data export functions, individually configurable report generator.

Includes the "Differential Pulse" (DP), "Square Wave" (SQW), "Linear Sweep Voltammetry" (LSV), "Cyclic Voltammetry" (CV), "Cyclic Voltammetric Stripping" (CVS), "Cyclic Pulse Voltammetric Stripping" (CPVS), and Chronopotentiometry (CP) measuring modes. The following calibration techniques are supported: Standard addition, external calibration, DT (Dilution Titration), LAT (Linear Approximation Technique), MLAT (Modified Linear Approximation Technique), RC (Response Curve).

Dialog languages: German, English, Chinese, Japanese.

The following instruments are supported: 884 Professional VA, 894 Professional CVS

1 license for a maximum of 4 Professional VA/CVS instruments on a single computer. Contains USB flash drive and installation documentation.

Client/server-compatible computer program for control and data management of Professional VA/CVS instruments. The software permits checks, data acquisition, evaluation, and monitoring, as well as report generation.

Graphic user interface for routine operations, extensive database programs with reevaluation, graphic method editor with numerous templates, system configuration, very flexible user management, extensive data export functions, individually configurable report generator.

Includes the "Differential Pulse" (DP), "Square Wave" (SQW), "Linear Sweep Voltammetry" (LSV), "Cyclic Voltammetry" (CV), "Cyclic Voltammetric Stripping" (CVS), "Cyclic Pulse Voltammetric Stripping" (CPVS), and Chronopotentiometry (CP) measuring modes.
