# Solid Autosampler CIC (TEI)

2.0136.0620

The Solid Autosampler CIC (TEI) is used for automated analysis of solid samples using Combustion IC. It can be used in combination with the Boat Introduction Modules (6.07311.010 or 6.07311.020). The sample rack for solids no. 1 (6.07312.010) and a cover for the sample rack are already included.
