

Metrosep C 3 - 100/4.0

6.1010.410

The innovative substrate on a polyvinyl alcohol base increases selectivity for monovalent and divalent cations significantly. The peak forms on this cation column are highly symmetrical.

The shortest separation column of the Metrosep-C-3 product range is particularly suitable for rapid separations of standard cations and for separating larger organic amines.

Phụ kiện tùy chọn

Order no.	Description
6.1010.450	Metrosep C 3 Guard/4.0
	<p>The Metrosep C 3 S-Guard/4.0 contains the C-3 column material and is used to protect Metrosep C-3 cation columns. Particles and contamination are reliably retained, considerably prolonging the service life of the analytical separation column. The Metrosep C 3 Guard/4.0 also works based on the "On Column Guard System" and is screwed directly onto the separation column with virtually no dead volume.</p>

The Metrosep C 3 S-Guard/4.0 contains the C-3 column material and is used to protect Metrosep C-3 cation columns. Particles and contamination are reliably retained, considerably prolonging the service life of the analytical separation column.
